

November 20, 1984

TO: File
FROM: Steve Cox, Reclamation Biologist
RE: Standard Gypsum Products, DOE/053/003, Washington
County, Utah

On November 15, 1984, Tom Munson and Steve Cox visited the lease #40876 area in Sections 17, 18, 19 and 20, Township 43 South, Range 15 West. A Declaration of Exemption had been filed for this lease on October 17, 1983.

There are numerous small roads which transect the area, but it is unknown whether these roads were used for exploration or are associated with the nearby housing development. No open pit mining areas or other disturbance associated with mining were observed.
